Pptx Pptm to Swf Converter 3000 is an easy to use, yet flexible tool to convert PowerPoint presentations to SWF. It can be used to convert all PowerPoint presentations, presentations of PowerPoint, PPTX, and PPTM into SWF. You can extract graphics of PowerPoint presentations and make them vector graphics. It supports batch conversion of PowerPoint presentations to SWF format. It can preserve the original layout, text, images, etc of your PowerPoint file. Moreover, PPTX files are usually known to be smaller, resulting in a brief conversion time. SWF has an important role to play in browser applications such as games or multimedia. SWF is known for its vector graphics potential, so it may help with transitioning graphic elements from a presentation to a webpage or something related. As for the vector graphic, this is a better format if compared to raster graphics, which require aliasing in order to display a scaled image. Regarding the app's handling, you have nothing to worry about here. Look for the Add Files button and load in as many PPTX/PPTM files as you wish. To complete the process, tweak the output type and directory as you find appropriate and wrap it up by clicking the Convert button. Key Features: - Convert PPTX and PPTM format presentation to SWF format - Support multiple-input files, just simply add PPTX/PPTM files into the program, and each of the files will be added to the conversion list - Extract graphics of PowerPoint presentations and make them vector graphics - Preserve original layout, text, images, etc in PowerPoint file - Automatically convert between different presentations of PowerPoint - Batch convert PPTX and PPTM to SWF format INFLUX PPT to PDF Converter is a powerful and easy to use converter to convert PowerPoint to PDF format with very high performance.
